

**WormWatch Location Form**

It is important that we receive accurate descriptions of your Worm Watch observation locations. You can look up your latitude and longitude coordinates at your local library or natural resources office from hardcopy maps or by using the maps at [http://wspace.cciw.ca/eman/find\\_coordinates.html](http://wspace.cciw.ca/eman/find_coordinates.html).

**Remember to give each location a unique name and number.**

Location Name (ex. Pilgrim Wood Public School)		<input type="text"/>
Location Number (use sequential numbers, starting with the number 1)		<input type="text"/>
Name of nearest road		<input type="text"/>
Name of nearest town		<input type="text"/>
Latitude: <input type="text"/> ° <input type="text"/> ', <input type="text"/> " N    Longitude: <input type="text"/> ° <input type="text"/> ', <input type="text"/> " W		
<b>Habitat Description</b> (check all that apply)	<b>Soil Type</b> (check all that apply)	<b>Soil Colour</b> (check all that apply)
Hardwood Forest (deciduous) Softwood Forest (coniferous) Mixed Forest Grassland Farmland Abandoned Farmland Marsh, Bog or Wetland Residential gardens and lawns School Yard Empty Lot	Rich and loamy Rocky Sandy Water saturated/muddy Clay Moist Dry	Light brown Dark brown Black Red
