

Help Us Determine the Full Range of the Western Chorus Frog!

Frogs will soon be calling, and we are calling YOU!

Why monitor western chorus frogs?

- It is a **threatened** species in Canada
- Data contributes to a range-wide long-term monitoring program
- Your data helps us identify range declines and increases
- Your data helps us quickly respond to range declines over time

We need your help!

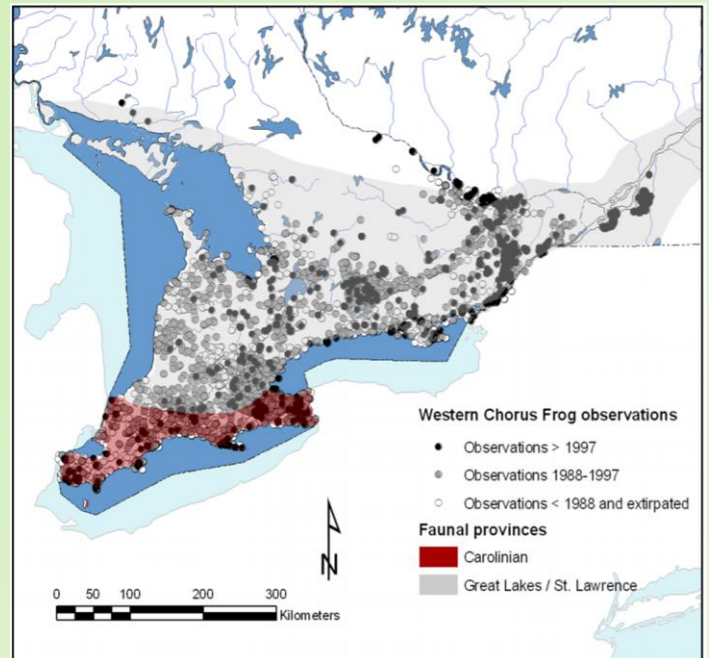

- We rely on volunteers to conduct 3 short daytime call surveys
- Sign-up to contribute in your community
- Choose your preferred number of sites to survey and preferred travel distance

Where?

- Range-wide! (see map)
- We'll help you select sites

When?

- As soon as WCF begin calling!
(March-May)
